aslam4webz@gmail.com | [linkedin.com/in/emaslam](https://www.linkedin.com/in/emaslam) | github.com/aslamwebz | mohamedaslam.dev

Laravel/PHP Developer with 4+ years of production experience building web applications, REST APIs, and admin systems. Strong focus on clean code, automated testing, and reliable CI/CD deployments. Proficient with Livewire and Vue.js for frontend integration. Based in Portugal with EU TRC — immediately available for remote roles.

TECHNICAL SKILLS

Core: PHP 8.x · Laravel (10/11/12) · MySQL · REST APIs · Git/GitHub · OOP/MVC · Filament · Laravel Nova

Frontend : HTML · CSS · JavaScript · Livewire · Inertia.js · Alpine.js · Tailwind CSS · Vue.js

Cloud, DevOps & Tools: Git/GitHub · Docker · Bitbucket · Azure · CI/CD · Linux · Cashier (Stripe/Paypal)

Testing, Monitoring & Quality: PHPUnit · Pest · Static Analysis · OpenAPI/Swagger · Postman · Sentry · Telescope · Logrocket

Auth & Security: Laravel Sanctum · Passport · OAuth 2.0 · RBAC

AI-Enhanced Development: Claude Code · Cursor · Windsurf · Perplexity · Open Code · Ollama

EXPERIENCE

Digital Egg Ltd / Fullstripe s.r.o

May 2021 – Present

Software Engineer

Remote, United Kingdom

- Built and maintained Laravel/PHP web applications supporting a global user base, handling high-concurrency requests with Vue.js, Inertia.js, and Livewire interfaces.
- Designed and documented 15+ RESTful API endpoints using Laravel Sanctum, enabling clean integration for web and mobile clients.
- Integrated payment and authentication flows using Stripe, PayPal, and OAuth 2.0, following security best practices and clean separation of concerns.
- Established a test-first development culture using Pest and PHPUnit with PSR-12 standards, reducing production bugs and regressions by 40%.
- Developed Filament and Laravel Nova admin systems that automated operational workflows, improving internal team productivity by 40%.
- Designed backend architecture involving event-driven workflows, job queues, and multi-environment deployments across a growing product team.

Remote Office One

Jul. 2018 – Nov. 2020

WordPress and PHP Web Developer

Remote, Sri Lanka

- Built 50+ WordPress websites and PHP web applications from design mockups, writing clean, documented code.
- Maintained project documentation and contributed to internal knowledge base.

Multi-year background in IT infrastructure

Dec. 2012 – May 2018

IT Infrastructure & Network Engineer

across Qatar and Sri Lanka

- Managed enterprise server, network, and security infrastructure across multiple organizations, providing a solid foundation administration, deployments, and operations that strengthens backend engineering work.

EDUCATION

ICBS Sri Lanka, Awarded by the University of the West of Scotland (UWS)

Remote Learning

Master of Business Administration (MBA) in International Business

2025 – Present

Dharmadutha College

Sri Lanka

GCE Advanced Level (A/L)

2009 – 2011

Dharmadutha College

Sri Lanka

GCE Ordinary Level

1996 – 2008
